

Current Connections: January 2026

January is a time for fresh starts and renewed focus. As we begin the year, we're energized by the opportunities ahead and grateful for the continued trust of our team and partners. We look forward to building on this foundation and making meaningful progress in the months to come.

A New Year, A New Beginning

Melisa Thomason

As we begin a new year, we are given the gift of a fresh start—an opportunity to reflect, reset, and move forward with hope. For those of us who share a faith in Christ, the new year is also a reminder that God’s mercies are new every morning and that He walks with us into each season ahead.

As employees of H&W, we are called not only to do our jobs well, but to work together as a team—encouraging one another and building each other up. A strong company is not built by one individual, but by many people working toward a common goal with unity, respect, and purpose.

As we start 2026, let us be mindful to pray for our country and its leaders, asking for wisdom, guidance, and unity. We should also lift up our H&W leadership, our coworkers, and one another in prayer. When we pray together and for each other, we strengthen more than our faith—we strengthen our workplace and our relationships.

I have been blessed to be part of the H&W family for 39 years, and during that time I have seen many changes and tremendous growth. One thing I have learned over the years is this: without employees working together toward a shared goal, true success is not possible. Teamwork is the foundation that allows a company to grow and thrive.

I am truly grateful for the opportunity to have worked for Dick and Alan Holcombe. Their dedication to making H&W the best company in Greenville to work for is evident in their leadership and commitment to our people.

Working in the construction industry—especially during busy seasons—can sometimes feel overwhelming. During these times, it is especially important that we give each other grace, patience, and encouragement. We never know what someone else may be facing in their personal life, and a kind word or supportive gesture can make a lasting difference.

As we move into 2026, let us remember to be kind, be encouraging, and support one another—both professionally and personally. Thank you to each and every employee for your hard work, dedication, and commitment to H&W.

May this year be filled with growth, unity, and blessings for us all.

**Blessings to all,
Melisa Thomason**

PROJECT PROFILE: NOVANT HEALTH Project Managers: Mike Lee & Russ Trezona

H&W Electrical Corp is proud to be part of the **Novant MOB** project, a four-story medical office building located in **Patewood Medical Park**. This modern facility is designed to support a wide range of outpatient healthcare services in a highly functional and patient-focused environment. The **first floor** features an **Urgent Care Center** alongside a **Physical Therapy Center**, providing accessible, front-line care for the community. The Physical Therapy area also includes an **outdoor PT field**, complete with site lighting to support extended hours of use and enhanced patient experience.

The **third and fourth floors** are dedicated to **clinic spaces**, including **radiology rooms** designed to accommodate advanced diagnostic equipment and specialized medical needs.

We are excited to be collaborating with **Vannoy Construction** on this project and look forward to delivering high-quality electrical solutions that support the facility's mission of exceptional patient care.
