

JOB DESCRIPTION

# Field Technician — Trimble

H&W Electrical | Greenville, SC

---

<b>Department:</b>	Technology & Field Survey	<b>Reports To:</b>	Project Manager / Technology Lead
<b>FLSA Status:</b>	Non-Exempt / Hourly	<b>Openings:</b>	1-2
<b>Travel Required:</b>	Yes — project site-based role; travel to active H&W job sites required		

## Position Summary

---

H&W Electrical is seeking Field Technicians proficient in Trimble field layout and survey technology to support precision installation on industrial and commercial electrical projects. This role bridges the gap between project design and field execution, ensuring that conduit runs, equipment pads, and underground installations are laid out accurately using Trimble total station and layout tools.

## Primary Responsibilities

---

- Operate Trimble total station, layout tools, and associated software on project sites
- Perform field layout of conduit runs, equipment pads, underground ductbanks, and electrical infrastructure
- Collaborate with project managers and superintendents to translate design drawings into field-ready layouts
- Maintain Trimble equipment and ensure calibration and accuracy standards are met
- Document and report layout data and field conditions
- Provide technical support to field crews during installation

## Required Qualifications

---

- Demonstrated hands-on experience with Trimble total station — required
- Background in electrical construction, civil, or survey strongly preferred
- Ability to read and interpret electrical and civil construction drawings
- Strong attention to detail and spatial reasoning skills
- Proficient with Trimble software (Trimble Access, Business Center, or similar)

## Physical Requirements

---

- Ability to work outdoors on active construction sites in variable weather conditions
- Must be able to carry and set up equipment weighing up to 30 lbs

## About H&W Electrical

---

H&W Electrical is a family-owned design-build electrical contractor headquartered in Greenville, SC. We are committed to hiring employees who not only want to work, but who want to work for H&W. Every employee receives a tailored career path, access to H&W University for ongoing training and skill development, and the

tools they need to succeed. H&W promotes from within — we are invested in the long-term growth of every member of our team.
